—Ask the average man what air is, and he can't tell, for he can't see it. Ask him what mud is and he will tell you. Mud is water in excess of the absorption of the soil. Mud will make bricks, but it is no good for crops, and your rural mail carrier has no use for it.

In 1905, the first year of Republican rule, the interest turned into the treasury from state deposits was \$76,018.81. Missouri is glad to be shown in this fashion. It is exactly like finding money.

—To give our readers an idea of the amount of peaches shipped out of Forest City during this year thus far, we would say that there were 7,000 crates, requiring 17 refrigerating cars to accommodate the shipments. The principal shippers were: N. F. Murray, S. N. Bueber, Campbell & King, J. T. Maine, Bridge man & York, James Kelley, A. B. Cass, Samuel Spurrier, Mrs. S. B. Knowles, G. T. Sinclair, Wm. —Louis, the bright, promising son of Will M. Maupin, of Lincoln, Neb., spent a day or two here last week, visiting his uncle Whit. He is in the employ of one of the banks at Lincoln, as one of its book-keepers, and was down enjoying his vacation at the Big Lake, coming to Oregon, before his return home. Had he stayed a few days longer, the Fudge club were going to initiate him, and make him see stars. Had it been his "pa," at Louis' age, he would have stayed for that initiation, fish or no fish. We hope when the Yule tide comes round he will be able to "drop in" for a more extended visit.

—The paw-paw, luscious fruit dear to the heart and delicious to the taste of every loyal, bred in the bone Missourian, now is offered on local fruit stands. Not all who taste the fruit admit a liking for it, but it is as distinctive a state product as is the Kansas sunflower. When green, the fruit looks not unlike a cucumber, somewhat shortened. The fruit yellows on ripening, and then is peeled and eaten in the same manner as a banana. The texture of the flesh greatly resembles that of the banana, but abounds in seeds. Peter Baker living below Forest City, had a wagon load here during the fair, which he disposed of at 10 cents a dozen.

—Every once in a while I hear some ancient duffer moaning because times and things are not as they used to be, says Jake Foster. He longs for the good old times. The good old times are not what they are cracked up to be. People appeared to be happy and contented, but it was forced. In those days people used to crowd around one dinky kerosene lamp at night and try to read. They kept warm by a fire place that broiled the side toward the flames, while the other side frosted. They got their mail once a week by stage and saw a daily newspaper once a month. They knew little was going on over the rest of the world, and toiled for morning until night for a mere pittance. But then we will always have mourners with us. Fifty years from now some fellow will be longing for the good old times of 1906 in this town. They will tell about the greatness of the present day. They may even brag about the railroad but that is putting it on pretty thick. The trouble with people is that as they get older their stomachs sour and dyspepsia crawls in and they forget. Don't be a moaner.
